

Dive No.	178
Date	Sat 03 Oct 2015
Location	Oban, Altair wreck, Scotland
Max depth	39m
Duration	38min

Time.	5:27 PM
Air Temp.	13.6°C
Water Temp.	12.0°C
Buddy	Neill McPhee PADI 614747
Dive Master	Neill McPhee PADI 614747

Notes
A very pleasant dive. Viz 3m near surface, around 5m at 35m depth. Saw many lobsters, crabs, anemones. Dived to wreck, with slow ascent up the slope afterwards. At start of ascent (at 12 minutes into the dive), the air release valve of the drysuit stuck closed. Rapid ascent but Neill caught me and knocked the valve until it opened. Did not do explicit safety stop.
