Location	Mafia Island: Milimani Islands Cleaner station	Water Temp.	26.8°C
Max Depth	17.9m	Buddy	Lukas
Duration	1:01h	Dive Master	Jenny King PADI 638818

Notes

Weighting of 8 kg total much better. viz 20m at bottom, 3m at surface. A medium current, had to swim against it for quite a distance, especially towards the end.: a mixture of drift diving and swimming against the current. A wonderful dive. Hectares and hectares of coral, all of it filled with life. One large area of coral debris. Visted the cleaning station first, with shrimps and cleaner wrasses. Two large round ribbon-tailed rays hiding in holes under the coral. Whip coral gobies.
